

The Village Green Project

What Haltham Parish Meeting chose not to tell the Parish:

- that following the approval of the Councillors' Community Grant of £500 on 11th February 2019 Haltham Parish Meeting pledged to spend an additional **£1500** on the Village Green Project
- that the **£1500** was to support Stage 1 of the Village Green Project ie to develop a play/recreation area and create a safe access to the Village Green.
- that money would be spent on 'providing appropriate play equipment' and 'creating a safe access to the Village Green'.
- why it did not consider consulting the Village important prior to submitting the Application or seek approval of a spend of **£1500**
- why the Village Green Project, given that it is a major project with a pledged spend of **£1500**, was not reported on fully at the open meeting on 14th May 2019 or communicated via newsletters in such detail that it would give residents an insight as to what the aim of the Project was.
- if the 'scheme' referred to in the minutes of 14th May 2019 was ever agreed and by whom and when and why wasn't it communicated to the Parish?
- that requests, both informal and formal, for detailed information relating all aspects of the Project would be denied by Haltham Parish Meeting.

Why has Haltham Parish Meeting shrouded this Project in such secrecy for the past 9 months?
